

# About Us

The Town of Gibbons is located in the midst of the Alberta Industrial Heartland off Highway 28A, 37 km northeast of downtown Edmonton. We offer a rural atmosphere within an urban setting. Our community takes great pride on being a safe and friendly place in which to raise families and enjoy an outstanding quality of life.

Situated along the Sturgeon River, the Town is located in a beautiful natural setting. The river valley boasts some of the most diverse plant species found within the Edmonton area, including the Prickly Pear cactus normally found in the Badlands area of southern Alberta. It is fully developed with structured pathways, benches, picnic area, viewing point and an adventure playground.

The heart of the town includes services such as food, library, pharmaceutical, banking, vehicle service, medical, dental, legal and other personal service needs.

Gibbons has a variety of childcare options and 2 quality schools, Landing Trail School for grades kindergarten to four and Gibbons School for grades five to nine. The town also offers a variety of year round recreational activities through various community groups and the Crowsnest Community Services.
